

# INDUSTRY-LEADING EXPERTS

Electric Power Systems is a NETA Certified, independent electrical testing & engineering organization. We specialize in commissioning, start up and maintenance testing for Utility, Industrial, Transit, Data Centers and Commercial Facilities.

## COMMITTED TO INNOVATION

At Electric Power Systems, we continually push for excellence and advancement in technology.

EPS partners with many equipment manufacturers to continue to pursue excellence in everything that we do.

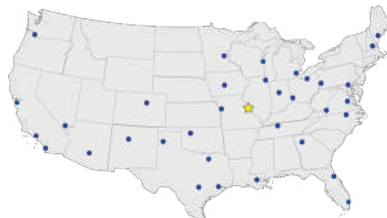

## WE'RE HERE TO SERVE ALL YOUR NEEDS

With a full range of electrical testing, maintenance, and engineering services, Electric Power Systems is here to help you reach your goals. From basic testing to complex EPC projects, we're here to help you.

## WE'VE GOT YOU COVERED!

With offices conveniently located throughout North America, EPS is uniquely positioned to staff your project, regardless of location. As one of the largest independently owned electrical testing companies in the country, we are capable of staffing any testing or commissioning project, regardless of size or scope.

# COMMITTED TO Safety & Reliability

At Electric Power Systems we are committed to promoting a culture of safety within our organization and along side all of our clients. Our dedication to providing safe and reliable services has made us a trusted industry leader since 1977.

## WHY EPS?

### EXPERIENCE:

**EPS** performs extensive work on:

- Transmission & Distribution Substations
- Power Generation Facilities
- Renewable Energy Installations
- Commercial, Industrial, & Government Facilities
- Data Centers, Hospitals, & Critical Infrastructure

### UNIQUE, CUSTOMIZABLE SERVICES:

In addition to testing and maintenance, **EPS** provides engineering services including design, arc flash analysis, coordination studies, and consultation for compliance to meet NERC/FERC requirements.

### A TRUSTED NAME:

**EPS** is the preferred firm for multiple renewable energy, utility, and industrial contractors.

### ONE PROVIDER:

Because **EPS** has offices throughout North America, we perform most work directly.

## OUR SERVICES

- Substation Commissioning
- Acceptance & Maintenance Testing
- Protective Relay Systems Testing
- Circuit Breaker Maintenance & Repairs
- Oil & SF6 Circuit Breaker Testing and Installation
- Transformer Testing & Installation
- Transformer Assembly & Oil Processing Services
- Insulating Fluids Sample & Analysis
- Electrical Equipment Repair Services
- Infrared Thermography
- Engineering & System Studies
- Partial Discharge Testing

## OUR PEOPLE

As a full member of the Inter National Electrical Testing Association (NETA), all of our technicians are required to be tested to demonstrate their knowledge in several categories, including safety and independent electrical testing methods. In addition, **EPS** has an in-house safety and training program to further the knowledge of all our personnel and to ensure they continue to work safely and effectively, even as technology changes.
